

Why Use PolyPipe®?

PolyPipe® offers a complete range of extra high molecular weight (EHMW), high-density polyethylene (HDPE) pipe. We are known for state-of-the-art facilities, and a team of people dedicated to the industry and to the customers we serve.

PolyPipe® is one of the largest manufacturers of pressure-rated polyethylene pipe. PolyPipe® uses only select resins that meet our demanding standard of excellence and quality. As a result, you can count on the performance of any PolyPipe® system as specified.

PolyPipe® is strategically positioned to be your single source provider of polyethylene pipeline assistance. With extrusion facilities and a national network of key distributors covering all regions of the United States, Mexico and Canada, PolyPipe® can be your pipeline to the world. Our products are in service all over North and South America, as well as Europe, the Middle East and Southeast Asia.

Understanding your objective is our first priority.

Our ability to match specific products and systems to a wide range of client needs has been recognized as outstanding in the industry.

We produce millions of feet of polyethylene pipe, year in... year out, for a variety of customers all over the globe.

- PolyPipe® has six plant locations throughout North America and a licensing agreement in Mexico for the best possible geographic location to meet your needs.
- PolyPipe® is nimble enough to satisfy your most demanding requirements. Our customer service attitude is recognized as "best in class".
- PolyPipe® is an active member of the Plastics Pipe Institute (PPI). We also sit or chair many associations and standard committee groups.

- Feel free to contact our Technical Services Department, staffed by licensed Professional Engineers who are always ready to address your questions. (940) 668-4419

Major Industries Served

- Natural Gas Distribution
- Pipeline Rehabilitation
- Gas Gathering
- Water & Sewer
- Oilfield Applications
- Landfill
- Power Plants
- Industrial & Mining
- Chemical
- Hazardous & Solid Waste

Quality Assurance in Product Design and Materials

We define quality as an inherent value that results in superior performance. PolyPipe® is the engineering leader in the field, offering knowledgeable, enthusiastic technical support, exacting laboratory procedures and testing methods, and a constant quest for manufacturing excellence. Quality leadership also demands innovation and improving services that are always customer-based.

PolyPipe® is continually striving to meet the demands of the market today. Our qualification as an ISO 9001 company has given us great confidence in our quality system to ensure quality products are manufactured on a consistent basis. It is the policy of PolyPipe® to achieve total quality system performance by understanding and meeting its customer requirements without error, on time, every time.

At PolyPipe®, quality throughout the manufacturing process is an inherent value that assures the highest performance. Our manufacturing facilities start with only superior grade, polyethylene resins that have been specifically formulated for long-term integrity and performance. Computer controlled extrusion techniques are utilized in the manufacture of our pipe to ensure quality.

Contact PolyPipe® and ask us about the specific advantages we may offer to your unique requirements in your particular industry. We can assure you PolyPipe® offers the best in pipe and services.
